Second Annual Maker Faire San Diego Returns to Balboa Park!

SAN DIEGO (Wednesday, August 10, 2016) – Surrounded by fire-breathing robots, a giant reticulating spider, hand sculpted soapbox derby cars, rocket launchers and many more spectaculars, Mayor Kevin Faulconer joined the Balboa Park Cultural Partnership for the official announcement and call to makers, for Maker Faire San Diego, October 1 and 2!

Maker Faire San Diego will be a part of Innovate San Diego week. A week-long series of events showcasing innovation in the Cali-Baja region. “San Diego is a city with incredibly talented people and an innovative spirit that can’t be matched anywhere else,” Mayor Kevin L. Faulconer said. “It’s why we are proud to introduce INNOVATE San Diego – an event that will showcase San Diego’s ingenuity, creativity and innovation economy on a global stage by bringing together nearly a dozen great events under one banner.”

Councilmember Todd Gloria closed out the conference with a big Maker Faire San Diego announcement. Two new venues have been added to the 2-day festival: The Old Globe and The San Diego Museum of Man. The Old Globe will present costuming & stage set design while San Diego Museum of Man will focus on beer making.

“San Diego embraces its culture of innovation, which is transforming our City into a hub for technology and sustainability. Maker Faire will put this culture on full display. Today you’ve had a glimpse of what to expect throughout the Park when San Diego’s makers once again show off their creations. I can’t wait to see what else is in store.” said Councilmember Todd Gloria

ABOUT MAKER FAIRE:

Maker Faire is an award winning, family friendly event celebrating technology, education, science, arts, crafts, engineering, food, sustainability, and more. Maker Faire has become part of pop-culture, a place for experiential marketing, debuting new technologies and inventions, and celebrating geekdom. Maker Media produces two annual flagship Maker Faires, partners with museums to produce Featured Maker Faires, and works with communities to license Mini Maker Faires around the world. <http://makerfaire.com/>

HISTORY OF MAKER FAIRE:

The first Maker Faire launched in May 2006 in the San Francisco Bay Area and was quickly followed by Faires in Austin, Detroit and New York City, as well as others around the world. Technology has lowered the barriers to entry to becoming a Maker and this launched the Maker Movement which fuels Maker Faire. Maker Faire was designed to be forward-looking, showcasing Makers who are exploring new forms and new technologies. But it's not just for exhibiting what's new in technical fields—Maker Faire features innovation and experimentation across the spectrum of science, engineering, art, performance and craft.
